

FOR IMMEDIATE RELEASE:

Versatalis Payment Solutions signs agreement with Sage Payment Solutions and will offer the only integrated solution to Peachtree Accounting Software.

Scottsdale, AZ, September 22, 2009 – Versatalis Payment Solutions, Inc., a leader in integrated payment solutions for Point of Sale developers, announced that it has signed a three year agreement to offer the only integrated payment solution in Peachtree Accounting Software.

“The addition of Sage Payment Solutions is directly in line with our strategic goal of partnering with Point of Sale developers and integrated payment solutions to provide a higher level of service to all of our merchants” stated Tom Cooley, President/CEO of Versatalis Payment Solutions. “In addition to the integrated solution, Versatalis will offer each new Sage Payment Solutions merchant a complimentary copy of Peachtree Accounting Software and ACT! Customer Relationship Management software. Versatalis is eager to become a key partner with Sage Payment Solutions by incorporating the sales and service function of the Accounting Software and providing a higher level of support for merchants utilizing this interface”.

About Versatalis

Versatalis Payment Solutions

Versatalis Payment Solutions, headquartered in Scottsdale, AZ is a single-source, full-service provider of electronic payment processing services (including credit, debit, EBT, gift cards, customer loyalty cards, checks and more). Versatalis leverages relationships with its Strategic Partners to provide superior service and scalable solutions to the niche markets we serve.

Versatalis Payment Solutions was developed out of demand for a more integrated and flexible payment processing solution. Our primary focus is assisting Point of Sale developers, dealers and Franchise groups to develop a streamlined process for setting up and supporting non-cash payments at the point of sale.

As a registered ISO (Independent Sales Organization) and Strategic Partner of [First Data](#), Versatalis is uniquely qualified to support our specific merchant types. The comprehensive support provided to our customers is based on the principle of providing a “one-stop-shop” for all payment processing related needs. We either directly support, or work closely with Point of Sale Developers and third party payment processing software in an attempt to solve any support issue. In many cases Versatalis acts as the common link between these three independent groups.
