

DINE-AMICS

Newsflash

January 9, 2006

Versatalis Payment Solutions and DINE-AMICS Software, Inc. enter into a marketing and referral agreement to provide cutting edge payment processing services to DINE-AMICS customer base. DINE-AMICS has an integrated software product that communicates directly to Versatalis' primary authorization network, which eliminates the need for additional, costly credit card hardware.

Tom Cooley, President of Versatalis Payment Solutions says: "This Strategic Partnership is yet another example of Versatalis' commitment to providing cutting edge products to its customer base. The people at DINE-AMICS Software, Inc. recognize our experience in the POS environment, our extensive experience with Franchise groups and our high standards of customer satisfaction. DINE-AMICS Software, Inc. has chosen Versatalis to represent the integrated payment processing functionality in their flagship product."
