January 13, 2006

Versatalis Payment Solutions and Ennoview enter into a marketing and referral agreement to provide cutting edge payment processing services to Ennoview's customer base. Ennoview has written direct communications to Versatalis' primary authorization network, which eliminate the need for additional, third Party Software.

Tom Cooley, President of Versatalis Payment Solutions says: "Ennoview recognizes Versatalis as a leader in the integrated payment processing marketplace. The products and services offered by Versatalis, including real time transaction reporting, IP based processing, advanced reporting for Franchise groups and our customer centric support, greatly compliment Ennoview's extensive solution set. We are looking forward to providing each Ennoview customer the most comprehensive payment processing functionality available."

#### About Ennoview

Ennoview is the developer of Envision, a business management / appointment calendar / scheduling and POS software for Hair Salons, Tanning Salons, Beauty Salons, Nail Salons, Massage Parlors / Therapists and Day Spas. Ennoview, driven by a dedicated team of experienced IT professionals who thrive on cutting-edge technologies, delivers the most robust software in the industry, hands down. Built by and for salon owners and managers, we centered our capabilities around a very powerful appointment calendar unparalleled by even the closest competitors. We then encircled that with the robust features and capabilities to make doing business easier and more profitable. Envision is the powerful engine to make your salon or spa run efficiently, simply and more profitably.

## About Versatalis Payment Solutions:

Versatalis Payment Solutions is a single-source, full-service provider of electronic payment processing services (including credit, debit, EBT, gift cards, customer loyalty cards, checks and more). Versatalis leverages relationships with its Strategic Partners to provide superior service and scalable solutions to the niche markets we serve. As a registered ISO (Independent Sales Organization) and Strategic Partner of Paymentech LP, Versatalis is uniquely qualified to support our specific merchant types. Our customers benefit from the strength, reliability and vast product offering built into the Paymentech brand of products. Combine this powerful tool-kit with the niche market Versatalis serves, and you have the most comprehensive payment processing solution in the market today.
